## 👤 PROFILE

iOS Developer with 4+ years of experience building and maintaining scalable iOS and tvOS applications. Strong expertise in Swift, UIKit, SwiftUI, MVVM architecture, and API integration. Experienced in developing iOS and tvOS applications with a focus on performance optimization, memory management (ARC), and debugging. Skilled in collaborating with cross-functional teams, handling features end-to-end, and improving app stability. Passionate about writing clean, maintainable code and continuously improving development practices.

## 👛 PROFESSIONAL EXPERIENCE

03/2025 – present  
Islamabad, Pakistan

### Invotyx

iOS Developer

- Working on iOS and tvOS applications, adding new features and maintaining existing codebases.
- Improved app stability and performance through debugging and optimization.
- Collaborating with cross-functional teams to deliver scalable solutions.
- Handling feature development end-to-end and ensuring code quality and maintainability.

06/2022 – 02/2025  
Lahore, Pakistan

### Xint Solutions

iOS Developer

- Developed and maintained a fintech application with features including payments, bill payments, and wallet management.
- Implemented MVVM architecture to improve code structure and scalability.
- Integrated RESTful APIs and handled JSON parsing with proper error handling.
- Improved app performance and reduced memory usage by identifying and fixing memory leaks using Instruments.
- Used GCD and async/await for background processing and smooth UI updates.
- Debugged production issues and improved application stability.
- Collaborated with backend and product teams to deliver new features.
- Contributed to App Store releases and updates.

03/2022 – 05/2022  
Lahore, Pakistan

### Zawata Afnan Technology

iOS Developer

- Developed iOS applications using MVC architecture.
- Integrated APIs and implemented core app features.

12/2021 – 02/2022  
Lahore, Pakistan

### Zawata Afnan Technology

iOS Developer (Internee)

- Assisted in iOS development, bug fixing, and API integration.

## SKILLS

### Language

Swift

### Architecture

MVC, MVVM

### Networking

URLSession, Alamofire, RESTful APIs, JSON Parsing

### Version Control

Git, GitHub, GitLab

### Third-Party Integrations

Third-Party SDK Integration

### Frameworks

UIKit, SwiftUI, Combine, Core Data, Core Animation

### Concurrency

GCD, Async/Await

### Firebase

Push Notifications

### Debugging & Performance

Xcode Debugger, Memory Graph, Instruments  
(Leaks, Allocations, Time Profiler)

### CI/CD & Deployment

App Store Connect, TestFlight, App Store  
Submission

## PROJECTS

### Virtual VPN Express — Invotyx

Technologies: Swift, UIKit, MVVM, REST APIs

- Worked on VPN-based application focusing on secure connectivity and performance.
- Added new features and improved app stability.
- Collaborated with the backend team to ensure reliable network communication.

### Orion AI Chat App — Invotyx

Technologies: Swift, SwiftUI, REST APIs

- Working on an AI-based chat application with real-time user interaction and dynamic responses.
- Integrated AI APIs for generating intelligent responses and handling user queries.
- Implemented chat UI with smooth user experience and message handling.
- Optimized performance for handling continuous chat requests efficiently.
- Collaborated with the backend team for API integration and response handling.

### Google Search (tvOS Application) — Invotyx

Technologies: Swift, UIKit, MVVM, REST APIs

- Developed a tvOS application for searching and viewing news, videos, and images.
- Implemented media playback and optimized UI for Apple TV experience.
- Focused on performance optimization and smooth navigation on large screens.

### MYTM Sullis (Fintech Application) — Xint Solutions

- Worked on a production-level fintech app with features including payments, bill payments, mobile top-ups, and wallet management.
- Implemented MVVM architecture and handled API integrations using RESTful services.
- Improved app performance and resolved bugs to enhance user experience.
- Ensured secure data handling and stability in financial transactions.

### Loop E-Wallet — Xint Solutions

- Developed digital wallet features, including transactions and account management.
- Integrated APIs for real-time financial operations.
- Improved UI responsiveness and handled data updates efficiently.

### Business MRNA Wallet — Xint Solutions

- Contributed to the development of a business-focused financial application.
- Implemented core features and API integrations.
- Ensured smooth performance and stability across modules.

### Explore Turkey — Zawata Afnan Technology

- Developed an iOS application for exploring tourist locations and travel information.
- Implemented UI components and integrated APIs for dynamic content.

## EDUCATION

01/2016 – 12/2019  
Peshawar, Pakistan

**BS Computer Science**  
The University of Agriculture Peshawar  
CGPA: **3.71** Percentage: **92%** Grade: **A**

## ACHIEVEMENTS

17/04/2024

**Rising Star Award**  
CEO, Xint Solutions  
Received "Rising Star Award" for outstanding performance

18/11/2022

**Project Achievement Award**  
CEO, Xint Solution  
Delivered multiple production-level iOS Applications.

05/03/2017

**Awarded Laptop**  
Prime Minister of Pakistan

## CERTIFICATES

**Advanced Programming in Swift (Meta)**   
Coursera

**Introduction to iOS Mobile Application Development (Meta)**   
Coursera
